! ATTENDANCE POLICY !

Purpose: The purpose of this attendance policy is to ensure active participation, engagement, and accountability among members at club events organized by NJIT SWE.

Attendance Expectations: All members are expected to attend club events whenever possible. These events serve as valuable opportunities for networking, learning, and fostering a sense of community within SWE. SWE will keep a record of attendance at each event. This record will include the names of attendees, event details, and date.

Consequence of Non-Attendance: As announced by the SWE Eboard, attendance at club events will be accounted for in the context of upcoming conferences and activities. Members with a consistent record of active participation may receive preferential consideration for conference attendance.

Excused Absences: SWE understands that unforeseen circumstances may prevent members from attending certain events. In such cases, members may submit a request for an excused absence or drop by during office hours, explaining the reason for their non-attendance.

Enforcement:

The enforcement of this attendance policy will be the responsibility of the SWE EBoard. Any concerns or disputes regarding attendance will be reviewed and resolved on a case-by-case basis.

Review and Revision:

This attendance policy will be periodically reviewed by the SWE leadership to ensure its effectiveness and relevance. Any necessary revisions will be made in consultation with the club's membership.

By adhering to this attendance policy, we can collectively create a more engaged and dynamic experience for all members.

SWE COLLEGIATE MEMBERSHIP

Are you passionate about engineering, technology, and empowering women in STEM? Joining the Society of Women Engineers (SWE) as a collegiate member opens the door to a multitude of exciting benefits and opportunities.

Why Choose a Collegiate SWE Membership?

Exclusive Discounts: As a collegiate SWE member, you'll enjoy substantial discounts on registration fees for upcoming SWE conferences and events. This means more opportunities to network, learn, and advance your career without breaking the bank.

Networking Opportunities: Connect with like-minded individuals, industry professionals, and peers from around the world. SWE offers a vast network that can support your academic and professional journey.

Career Development: Access valuable resources, mentorship programs, and job opportunities through SWE's extensive industry connections. Your membership is an investment in your future success.

Scholarships and Grants: SWE provides numerous scholarships and grants exclusively for members, helping to alleviate the financial burden of your education and empowering you to achieve your goals.

Personal Growth: Develop leadership skills, gain confidence, and make a real impact in your community. SWE offers a supportive environment for personal and professional growth.

Empowerment: Join a community of trailblazers who are breaking barriers in STEM fields. Be inspired by the achievements of women engineers and contribute to the advancement of women in technology.

How to Join:

🎤 SWE RECAP 🎤

Last Wednesday, NJIT SWE presented a great Paint 'n Sip event that included creativity, delectable refreshments, and a pleasant atmosphere. Attendees sipped coffee or hot chocolate and ate doughnuts while immersing themselves in the realm of art, with peaceful fall lofi rhythms providing the ideal backdrop.

The event provided individuals with an opportunity to network and bond via their shared passion of engineering and creativity, as well as a fun and peaceful way to unwind. The movement of the paintbrushes over the picture demonstrated that the SWE community is as diverse in skill as it is in its commitment to STEM.

During the event, the SWE Eboard made an exciting announcement – attendance at events like these will be accounted for upcoming conferences. This underlines the significance of engaging in SWE events and taking use of the organization's wonderful possibilities.

The NJIT SWE Paint 'n Sip event was a great combination of art, companionship, and a look into SWE activities' exciting future. Thank you to everyone who came out, and keep tuned for more great events and conferences in the future!

♥ MEMBER OF THE MONTH

Hi! My name is Afshan, and I'm a freshman in the Honors College majoring in applied Mathematics. I've joined SWE this year as an Eboard shadower to continue my passion in volunteering, community service, and all things oriented towards empowering other women. Some of my interests outside of academics include reading non-fiction, teaching myself coding languages, and going ice skating during the colder months. Through my involvement in SWE, I'm hoping to connect with other young women who are interested in breaking into the STEM field and fighting back against stereotypes towards minorities!
