♟️ REVERSE CAREER FAIR AWARD ♟️

We are thrilled to announce that the Society of Women Engineers' (SWE) intercollegiate chapter has clinched the coveted first-place award at the recent Reverse Career Fair. Our outstanding performance and innovative approach to connecting students and industry professionals have earned them this well-deserved recognition.

At the Reverse Career Fair, SWE's chapter turned the tables by allowing students to showcase their skills, projects, and talents to recruiters and company representatives. This unique event empowered students to take the lead in conversations, impressing potential employers with their knowledge and expertise.

The judges were thoroughly impressed by SWE's dedication to promoting diversity and inclusion in STEM fields. The chapter's commitment to empowering female students and providing opportunities for all members to succeed was evident in their approach.

With this prestigious award, SWE's intercollegiate chapter continues to set the standard for innovative and effective career fairs in the STEM community. Congratulations to the entire SWE team for this remarkable achievement!

♥️ MEMBER OF THE MONTH ♥️

Congratulations Naomi Alves

“My name is Naomi Alves and I am a junior majoring in Biomedical Engineering. I choose this major because I have always been interested in healthcare, specifically working for government facilities such as BARDA, CDC, and DoD. I seek to be a part of the catalyst that will improve healthcare for civilians and military personnel alike. Additionally, I currently work in a lab in the Chemical Engineering department here at NJIT, and it has been a very fulfilling experience and has allowed me to expand my knowledge outside of the classroom. On another note, I consider myself a fan of anime and enjoy watching it on my days off, as well as crocheting, and attending my weekly Bible study.”

E-BOARD OFFICE HOURS

Campus Center Basement B13

Event Chair Neeraja: Mondays 11:30 AM - 1:00 PM
