### SWE EVENTS

### STUDY SESSION

As we gear up for the end of this semester, the Society of Women Engineers (SWE) is thrilled to invite you to our Finals Week event, co-hosted by Women in Computer Science (WiCS)!

**Date:** 11/29/2023  
**Time:** 2:30pm - 4pm  
**Location:** CKB 217

Expect refreshments to fuel your energy, friendly faces to offer encouragement, and a supportive environment to unwind. Whether it's a quick chat over snacks or simply a moment to decompress, we've got you covered!

We look forward to seeing you there and making your Finals Week a tad more manageable.

### ECC MEET UP

The recent collaborative gathering between the NJIT SWE chapter and the burgeoning Essex Community College chapter was an inspiring and informative exchange. The meeting focused on fostering a strong intercollegiate relationship and sharing valuable insights into the operations and objectives of the SWE organization.

Members from both chapters engaged in an interactive session, delving into the core values, initiatives, and accomplishments of SWE. NJIT representatives eloquently articulated the ways SWE empowers and supports women pursuing careers in engineering and related fields. They highlighted various programs, mentorship opportunities, and professional development avenues available through SWE.

Moreover, the session was an open platform for discussions on the future plans and aspirations of the Essex Community College SWE chapter. NJIT members enthusiastically shared their experiences, providing guidance and suggestions on how the emerging chapter could establish itself within the broader SWE network.

The atmosphere was one of collaboration and encouragement, reflecting the commitment of both groups to promote diversity, inclusion, and professional growth in STEM fields. The meeting concluded with a shared vision of future collaborations and support between the NJIT SWE chapter and the promising Essex Community College chapter, emphasizing the collective goal of empowering women in engineering and technology.

This inaugural meet not only strengthened the bond between the two chapters but also laid a foundation for ongoing cooperation and knowledge sharing within the SWE community.

## 👉 ASCE NETWORKING NIGHT 👈

The ASCE Networking event, a collaborative effort between SWE and SHPE, was an exceptional gathering that showcased the strength of diversity and collaboration within the engineering community. The highlight of the event was a captivating keynote address delivered by a representative from Women in Transportation. Her insightful speech shed light on the pivotal role of women in shaping the transportation industry, inspiring attendees to strive for excellence and leadership in their careers.

The event unfolded with an engaging segment where representatives from various esteemed companies took the stage. Each representative provided a compelling introduction to their company, offering valuable insights into their organization's ethos, goals, and opportunities. This segment not only familiarized the audience with the diverse career pathways available but also encouraged networking and potential collaborations between attendees and these industry leaders.

Following the enriching presentations, attendees had the opportunity to network openly while enjoying a delightful spread of food and refreshments. This networking session facilitated meaningful interactions, allowing participants to forge connections, exchange ideas, and explore potential career prospects in a relaxed and convivial atmosphere.

The event culminated with a raffle draw, adding an element of excitement as one lucky attendee won an exclusive SWE merchandise shirt. This fun conclusion added a touch of camaraderie and excitement to an already engaging and informative evening.

Overall, the ASCE Networking event co-hosted by SWE and SHPE was a resounding success, exemplifying the spirit of collaboration and empowerment within the engineering community. It not only provided a platform for professional development and networking but also underscored the importance of diversity and inclusivity in shaping the future of engineering and related industries.
