A Note From Our Executive Team

SWE HA is very excited to be the recipient of this year's Mission Award - Gold. The SWE Mission Awards recognize SWE groups that embody SWE core values and demonstrate continuous improvement and growth as they work to achieve the Society's strategic goals. We thank everyone for your support as we continue to elevate our section.

SWE-HA Focus Groups

SWE-HA Members Only. Our Focus Groups will be kicking off this Month!

Join us in continual learning, sometimes venting, and always growing together! Each focus group will meet virtually for one hour once a month. We will not meet during holiday weeks. The groups have rolling, open enrollment throughout the year so it's never too late to join. See below the dates for each focus group's meeting schedule. [Read more on our website page](#)

- **Grit Academy** - Young Professionals - We will discuss topics about work and life as we all explore the first 10 years of our careers.
 - Last Monday of the Month at 7:00-8:00 PM
- **Engineering Moms** - Open to all - Are you a current or expecting working parent? Want to meet other Houston Area engineering moms? Join us as we connect, ~maybe vent~ and learn the tips and tricks of the trade from each other!
 - Last Friday of the Month at 12:00-1:00 PM
- **Sustainability** - Open to all
 - 2nd Tuesday of the Month at 7:00-8:00 PM

Scholarships

Call for Named Scholarship Sponsors

The SWE Houston Area section invites our members and supporters to donate and create a named scholarship.

Visit [Our Website Scholarship Page](#) to Donate and Honor Someone with a Named Scholarship. Commitments must be made by **December 3rd**.

You can forever make a difference in someone's life!

The SWE-HA Scholarship Program encourages female students to pursue engineering or related science disciplines in ABET accredited programs. The recipient(s) will receive a monetary award. When you donate you can decide whether to support first year students or Upper Class students (or either).

By donating, the sponsor can pick the "Name" of the scholarship they award, setting additional criteria and honoring their school, their family, and those that helped them in their lives. In addition, all donations are tax-deductible!

Year-round Named Scholarship Grants are accepted. However, donations committed on or before December 3rd will be for scholarships awarded the following spring. Sponsorships received after this time will be applied to next year's scholarships.

Invent it. Build it. at WE22 Conference

The Invent it. Build it. program is a unique experience that helps students with an interest in STEM take their passion to the next level! Combining creativity, innovation, and exploration, Invent it. Build it. brings hands-on engineering activities to life for students ages 10-18.

Studies have shown that due to a lack of support, resources and programming surrounding STEM, girls will lose interest and confidence in engineering and math, even while performing at similar levels as their male counterparts. How do we resolve this? As part of the mission of the Society of Women Engineers (SWE), the Invent it. Build it. program was created to be the solution and encourage girls to follow their STEM Pathway however they see fit.
